Scraptivity December 2005 Sketches

Our December 2005 Scraptivity™ kit is all about sparkle and shine! Our feature technique is adding some "bling" to your layouts by making your own jewelry and acrylic stones. Create your own design using these sketches and remember to post your layouts in our Sketch Gallery under "Show."

Create your own card designs from the holiday cards our Creative Directors created with the December 2005 kit. Make your own sketches for cards and come up with multiple designs for next batch of holiday cards.
